The Recruiter Academy™ by Lean Human Capital is like a college degree in the Art & Science of Elite Recruitment; it is a full lifecycle recruitment training and certification program. The Recruiter Academy was first introduced in the IT Staffing industry in the late 90s during the technology boom. Identical to today's labor market in healthcare, demand for open positions drastically exceeded the supply of viable candidates.

This year we are introducing a new Recruiter Academy curriculum – a dedicated recruiter training program for healthcare contract staffing recruiters – that incorporates 20 years of training staffing firms, eight years of training healthcare recruiters, and the foundational knowledge of performance analytics and healthcare industry benchmarks through Lean Human Capital!

## HOW THIS EDUCATION PROGRAM IS DIFFERENT

It takes commitment, dedication, and hard work to become an elite recruiter in the healthcare industry. The Recruiter Academy: Contract Staffing Program is not a crash course. It is delivered through eleven 90-minute, live webinar sessions that allow students to absorb, retain, and apply the concepts and principles gradually over time.

## WHAT THE RECRUITER ACADEMY CAN DO FOR YOU

- Develop a time management strategy for when you have difficult-to-fill searches and large requisition loads
- Find top, passive talent for when you have limited time, money, and/or resources for sourcing
- Engage top, passive talent; entice candidates to respond to outreach and build instant rapport
- Land top, passive talent; master the art and science of candidate assessment, negotiation, and counteroffer diffusion
