

Staffing & Order Management

Staffing and Order Management, part of HealthcareSource Contingent Talent ManagementSM, allows you to move quickly from job order to fulfillment and features compliance and risk management tools to help ensure placement of fully qualified contingent staff. Task automation allows your recruiters to work more efficiently and fill orders faster.

Order Intake Process

Import job requisitions automatically from virtually every healthcare VMS platform with the HealthcareSource and JobRobotix integration.

Temp Dashboard

Easily filter to obtain lists of desired temps. Use shortcuts to create tasks, access calendars, and more without opening individual records.

Confirmation Manager

Define orders to fill with ability to group by client, temp, date, or region. Manage individual or multiple order information from one screen.

Mobile-Friendly Workforce Portal

Provides staff the ability to view schedules, request open shifts, upload signed timecards, and manage credentials more efficiently from anywhere.

HealthcareSource Contingent Staffing Solution

Healthcare staffing agencies operate in a business of minutes, where decreasing time-to-fill is mission critical to growing revenue. The only way to accomplish this is by becoming more efficient where it matters most: order intake, compliance validation, payroll and billing, and talent retention. At HealthcareSource, we provide the industry's only fully integrated solution specifically designed for healthcare staffing agencies and their unique challenges.

Recruiting Solution

Build a pipeline of qualified contingent staff with an online application process customized with your branding.
