HealthcareSource eLearning Library ℠

COURSEWARE OVERVIEW

ICD-10 Accelerated eLearning Packages℠

The anticipated ICD-10 implementation date of October 1st, 2015 is looming, and the amount of codes will be almost ten times greater than ICD-9. As the industry moves to Value Based Purchasing, payers are looking at clinical outcomes to determine reimbursement rates for healthcare organizations. Greater specificity in coding will impact outcomes data and more readily indicate complications and other clinical factors that previously could not be transmitted. Health Revenue Assurance Associates survey data shows that a third of hospitals have yet to start PCS training, which is the more complex code set, to transition 3,800 codes in ICD-9 to more than 71,000—an amount that is almost 20 times greater. Meanwhile, a quarter of hospitals have yet to start educating staff at all.

Are You Ready for ICD-10?

50%	Hospitals suffered lost revenue from ICD-10 and the number of anticipated losses could drag on from 6 to 24 months due to ill preparation.
48%	Providers and health plans are unsure if they have a Clinical Documentation Improvement (CDI) plan in place.
37%	Providers and health plans said CDI education is their most significant and immediate challenge.

It's not too late to protect your organization from lost revenue. Get your billers, coders, and physicians up to speed with the ICD-10 Accelerated eLearning Package from the HealthcareSource eLearning Library℠.

These eLearning packages will provide your team with the courses, delivery system, and reporting platform you need to keep ICD-10 education simple, fast, and stress free. ICD-10 shouldn't take employees away from their day-to-day responsibilities. With the ICD-10 Accelerated eLearning Packages, most employees can find 30 or 60 minutes at the beginning or end of a shift to complete their education.

Package Options*:

All-Inclusive Package– Don't miss out on any must have education for ICD-10. With the All-Inclusive Package, you'll have everything you need to prepare, including ICD-10 CM and PCS Assessment and Training Modules, plus Physician training from HCPro.

• • •

Physician Package– Physicians need to understand ICD-10, but they don't need to code. If preparing your physicians for ICD-10 is your top priority the targeted Physician Package will meet your needs. This package from HCPro is built for physicians, by physicians, to provide them with physician specific ICD-10 education.

• • •

CDI Package— Proper documentation is critical for ICD-10. Ensure your Clinical Documentation team can support ICD-10 with minimal impact to productivity with the CDI Package from HCPro.

*Packages are customizable to meet your needs.

Utilize HealthcareSource Classroom to Deliver Your Courses for Free*

You can deliver the Accelerated ICD-10 Packages through the HealthcareSource NetLearning LMS®, but if you don't have an LMS don't worry. ICD-10 is here and there's no time to waste. Let HealthcareSource Classroom get you up and running with the Accelerated ICD-10 eLearning Package you need, quickly.

Make your ICD-10 courseware purchase from us, and we'll deliver the education you need through HealthcareSource Classroom for free. With HealthcareSource Classroom, you'll get the benefit of courseware delivery through HealthcareSource NetLearning—a system that's easy to use and designed for healthcare. If you don't want to involve multiple departments, and you want education that only your billers, coders, and physician staff have easy access to, consider utilizing HealthcareSource Classroom. With our web-based delivery system, you get to select the managers who oversee the training for their staff and the right audience for ICD-10 education—there's no need to involve IT. All courses can be integrated on any SCORM 1.2 conformant LMS, including HealthcareSource NetLearning. One, two, and three year contracts are available for all packages.

*Does not include minimal service fees. Customized packages (depending on price) may not be available for use on HealthcareSource Classroom.
